RESTING ON THEIR ARMS Eighteen Hundred Miners Massed Abou:

ON THE VERGE OF BATTLE

the Fortifications.

The Situation at Cripple Creek Gloomy and the Men Desperate-An Attack Expected Early To-Day.

CRIPPLE CREEK, June 3 .- All day long the striking miners have been on the alert, expecting that any moment some of Sheriff Bowers' deputies would put in an appearance in some remote portion of the camp. Not a single miner is working in the camp. One shift was put on in the Moose, Prince Albert, Gold Dollar, Ingham, Jack G. and a few other properties, but the managers of these several mines were informed at noon that it would be impossible to run any of the properties tonight. The men are now confident they will be attacked some time to-morrow. maybe directly after midnight. They are ready, and this is so well known by the deputies that the officer commanding is using the utmost caution. All the men not necessary to guard the approaches to Bull hill and forage for supplies have been massed about the fortification, and their number is slightly over 1,800.

To-day the strikers made their last forage for arms, ammunition and supsupplies. Fearing a siege they have fired hundreds of beer kegs with water and stored them in the fort. Parties have been drafting recruits. Many of the parties were headed by women who promise to stand till the end comes. The towns of Victor, Anaconda, Mound City and other places are in possession of squads of armed strikers. Cripple Creek is entirely unmolested by strikers to-day. The plan of the strikers is to meet the deputies and make as strong a stand as ssible, and if necessary retreat to Bull hill, where a desperate stand will be made. The deputies will be commanded in the field by W. J. Palmer, leader of the army that had so many scrimmages during the building of the Denver & Rio Grande road. He says that at any moment the deputies may advance to a point beyond Midland, after which a battle will

only be a question of hours.

The miners to-day hailed with delight the words of Governor Waite in response to sheriff Bower's demand for troops and they now look forward to a battle, the end of which will be for them either victory or extermination. Open threats against Colorado Springs are made as a result of the treatment of Governor Waite and John

The wives of the strikers refuse to leave the camp. Some of them have organized to care for the wounded and others have procured Winchesters and will enter the

The strikers know what to do if the militia are called out. They believe Gov-ernor Waite to be their friend, but while here he said to the miners: "The law has been violated and I shall see that it is enforced in the future at any cost.'

It is expected Deputy United States Marshals Wire and Brown will soon arrive in the camp to serve a summons on he officers of the union to appear in St. Louis in the court of appeals. They will offer no resistance as they fear the federal

H. E. Woods, president of the Woods Investment company, whose main office is in Denver, but whose local office is at Victor, some miles from this city, was taken n charge at 9 o'clock by a large body of miners and carried up to the fort on Bull hill. His wife was present when he was taken and is almost frantic. The men told her that she need not worry, as they would turn Woods loose in the morning; that all they wanted her husband for was to explain certain matters that it would be impossible for him to do without his presence at their stronghold. At this writing not 10 business men here know the news. but they look into each other's faces and see nothing but dread and fear. The cause of the kidnaping of Woods it is im-

possible now to give.

DENVER, June 3.-When Governor Waite made his profane reply to Sheriff Bowers' request for troops at Colorado Springs last night, all hope of receiving aid from the militia was given up. Today's developments but strengthen the impression that no aid would be received through the governor. Governor Waite. Lorenz, his private secretary, and John Calderwood, president of the Miners' union, left Colorado Springs for this city, and arrived here at 1:30 o'clock this morning. Governor Waite and Lorenz went immediately into conference with the governor's advisers. Calderwood went where no one but Waite and Lorenz can find him. It is not known who all the governor's advisers were. Nothing was decided

pon at the conference. Sheriff Bowers followed Governor Waite to Denver on the next train. Today he made another appeal to the governor for troops, but so far the demand has proved ineffectual. Sheriff Bowers to-night started in search of Calderwood to arrest him but failed to find him. Lorenz refused to say anything about Calderwood's whereabouts until he had talked with the governor. The two went to the governor who not only refused to state Calderwood's whereabouts, but instructed Lorenz to say nothing. General McCook, located at Fort Logan, has prepared himself for a call and is in readiness, though how he can be called upon is

a mystery. Sheriff Bowers after an unsuccessful search for Calderwood, president of the Miners' union, has returned to Colorado Springs. The opinion is held by many that Calderwood has made use of this op-

portunity to leave the state.

THEY WILL START TO-DAY. Hogan's Division of Coxeyltes About to

Take Water. Special Dispatch to the Standard. HELENA, June 3 .- Gus Seinuer has just arrived from Fort Benton and states that the Hoganites have finished their boats and 300 men will start on their journey down the Missouri to-morrow morning. YOKOHAMA, Jun The lumber was furnished by the people dissolved the diet.

of Helena and they are fully equipped with supplies obtained at Benton. Com-modore Wheeler, who has made the trip from Benton to Sloux City, says that with the present state of the water they should make fully 100 miles a day. If they have experienced boatmen with them they can run nights with safety.

Open air mass meetings are being held here by the Spokano and Seattle Coxey-ites, who are seeking to establish a home guard here and also to get aid towards leaving the state.

EVENTS IN B.ZEMAN.

Matters Business, Social, Legal, Personal and Mortuary. Special Dispatch to the Standard.

BOZENAN, June 3 .- T. Jarvaise, a prominent farmer, living near Spring Hill, is

reported as being very ill. City Engineer Thorpe is working on plans and estimates of street macadamizing work. He will report to the council next Thursday the probable cost of paving Main street.

W. E. Whiting has accepted a position as clerk at The Bozeman. Mr. Whiting is a thorough-going newspaper man and, no doubt, he will make a most efficient hotel man.

Memorial day was the 40th anniversary of the wedding of Mr. and Mrs. W. W. Alderson. The major appeared to-day in a very fine new silk tile, which was presented to him by his daughter in honor of the happy event. Mr. and Mrs. Aldersot have the hearty congratulations of their many friends at home and throughout the

The Bozeman Electric company expec to add a fine new dynamo to their plant in a few days. On its arrival it will at once be put in position at the power house. The company will then be enabled to run a day circuit for the electric lights, which will add greatly to their already good service.

The following is the list of the trial jurors from whom the petit jury will be selected June 11: M. H. Wilkinson, Berry King, Archie McDonald, Charles Wetherin, Elias Story, jr.; John Seahill, T. B. Sackett, J. A. Green, I. J. Kounts, W. E. Harmon, R. T. Burnett, J. B. Salter, T. E. Noble, John Mitchell, John Tilton, T. M. Cartwright, J. H. Kennedy, E. D. Ferguson, H. K. Coleman, John W. Dawes, E. B. Lamme, Robert Riddle, L. C. Childs, W. A. Caldwell, W. W. Curtis, C. L. Cargill, E. Broox Martin, Gomer Reese, T. Jarvaise and G. W. Williams. The probate fees for the quarter ending

May 31 amount to \$133.95, which sum is larger than that for any quarter since the reduction of court fees some time ago. Out of 14 new probate cases entered for settlement, six were in the matter of estates of men who died suddenly from heart disease and one was the estate of a suicide. These seven estates are those of Hopping, Miller, Watson, Emerson, Whit-Wormser and Buchler, deceased.

Chief of Police Robertson has made every effort to-day to discover the identity of Edward Abbott, who died from an overdose of morphine yesterday at Butte. Abbott is supposed by the officers of Butte to be a rancher from the Gallatin valley, but thorough inquiry by Chief Robertson to-day failed to prove the supposition true.

A Bozeman National bank check book was found on the body of Abbott, but the bank officials say that they know no such man and that Abbott has no account at the bank. A young farm laborer of the Butte some time ago, but as the dead man is described as being about 50 years old, Chief Robertson thinks that he cannot be E. E. Abbott.

John Grifflith presented "Faust" here last night to a large and delighted audi-The scenic and electric effects were the best ever seen here and the entire performance was complete in every particular. Bozeman people had been awaiting "Faust" for some time and they certainly were pleased last night at Mr. Griffith's powerful rendition of the drama Manager Livingston deserves the thanks of the people for securing such an eminent company for Bozeman. Agricultural Experiment Station, Bulle

tin No. 2, has just been issued from the Courier press. The bulletin is a very neatly made up pamphlet of 32 pages. It treats entirely of the smuts of wheat, oats and barley and is the work of Professor Luther Foster of the station staff. The following topics are treated in the bulletin: "Extent of Drainage," "Cause of the "Stinking Smuts of Wheat." 'Loose Smuts," "Loose Barley Smuts," "Methods of Treatment"; "Blue Vitriol Treatment," "That Water Treatment," Potassium Treatment for Oats," "Discussion of Methods" and summary.

Five Blocks in Ashes.

OTTUMWA, Iowa, June 3 .- A disastrot fire occurred here and to-night five blocks are a mass of charred timbers and debris. One person was burned to death; one fatally affected by smoke and three others seriously injured. The dead are: James Seymour, burned to death; the injured are, Bert Batterson, suffocated and will die; John McCuilom, fireman, seriously burned; Nick Renner, leg broken; Jerry Seymour, overcome by heat and hurt by falling timbers. Five blocks were destroyed by the flames, including 15 business houses and 25 dwellings. The loss is estimated at about \$225,000; one-third

Suppressed by Police.

PARIS, June 3 .- A demonstration by socialists in commemoration of the "blood week" of the commune, which it was proposed to make to-day at the cemetery of Pero le Chaise, were abandoned. At-tempts were made by the socialists to hold meetings elsewhere, but the police sup-

Robbed of Four Dollars.

BUTTE, June 3 .- A Frenchman, who did not give his name, was held up last even ing near Yank's wood yard on South Main street and relieved of \$4. One man held a gun in his face while another went through his pockets. It was so dark the victim could not identify the thieves.

The Weather. Washington, June 3 .- For Montana: Fair; slightly cooler in extreme northern

Mikado of Japan. YOKOHAMA, June 3.-The mikado has

FLOODS ON ALL SIDES High Water Shutting Off Communication

PORTLAND IS UNDER WATER

With the Outside World.

All Trains On the Union Pacific Out of Butte Abandoned-The Deluge Extends to Eastern Montana.

BUTTE, June 3.-If the floods that have been raging for the past week and coninually gaining in force and volume, continue for a few days longer, there is every probability that this part of the state may become as isolated as it was before the railroads were built into the city, and if such proves the case they will be placed under the additional disadvantage of being unable to fall back on bull teams. All trains on the Union Pacific were abandoned to-day until further orders from headquarters, on account of an extensive washout at Market Lake, Idaho, a point about 65 miles from Pocatello and 220 miles from Butte. The Snake river has overflowed its banks and spread out all over the prairie that surrounds Market Lake. A dispatch received this evening from Pocatello states that the track is completely inundated for miles in both directions from Market Lake. Other advices indicate that the track is under water for as much as 10 miles. The damage cannot be estimated until the river subsides, but it is feared that a good deal of the track has been washed away as the river is on the rampage and everything before it is going.

No train went south to-day, but the regular train which left here at 3:30 yester day afternoon, and got only as far as Lima, returned at 1 o'clock to-day. It brought back all of the passengers who went south yesterday with the exception of Col. E. D. Bannister, who remained at Lima in the hope that he will be able to get across the washout in some way so that he can get to California in time to attend his daughter's funeral. The damage at Lima has not yet been repaired, and i is believed that traffic will not be resume between Butte and Ogden inside of four days at the earliest.

The Northern Pacific train from the

East which was due at 9:30 a. m. dic not get in until 4:30 p. m., having been de-layed six hours by a washout at Springdale, between Livingston and Big Timber. Passengers coming on this train state that the Gallatin river went on the rampage this forenoon and washed out a piece of track at Gallatin station, about six miles west of Logan and a short dis-tance from Three Forks. Road Master Pat Cummins took out a big crew from Bozeman on receipt of infor-mation of the washout and Dimation of the washout and Di-vision Superintendent J. D. Finn is also at the scene. Train No. 2, eastbound, is detained at Gallatin, and No. 1 was being held at Logan when the train left there for Butte. The extent of the damage at Gallatin station could not be learned, but it is believed that the washout is a bad one, and it may seriously interfere with traffic on the main line. The Gallatin river has overflowed at Logan and portions of the yard there are under water. The river passes through a narrow canyon at that point, and if the water gets much higher, it will do a great deal of damage. The train coming to Butte felt its way along very cautiously after it had left Logan and several high bridges were carefully examined before being crossed. The Northern Pacific is in a very ticklish position, and if the water continues to rise, it may be compelled to quit running trains west of

Bozeman within the next 24 hours. The Great Northern train from the east came in on time at 9 o'clock this evening. That road, so far as Butte is concerned, is in good shape so far.

The city is rapidly filling up with belated travelers who cannot get either west or south, and the hotels are doing a good business. The Grismer-Davies company which was to have appeared at Pocatello o-morrow night, is detained here, and will probably close its season here instead of at Salt Lake as was intended.

Effie Eilsler is due at Anaconda to-morrow night and in Butte Wednesday evening. She is coming from Spokane and there is no doubt that she will have to cancel her Anaconda date, although she may reach Butte in time to appear Wednesday evening.

PORTLAND, June 3.-This has been a busy day in Portland. All day long merchants in the flooded districts have been moving out goods or raising them on platforms above the water. The river continues to rise and every hour the situation secomes more perilous. No reports can be had from Eastern Oregon and Washington, the source of all the flood. Telegraph wires north and east are down and It is impossible to obtain any news of the situation along the Columbia river. The river here is 31 feet above low water and every 24 hours adds to it from 8 to 12 inches. Three-fourths of the wholesale district is under water from 2 to 10 feet and water is fast encroaching upon the best part of the retail district. Hundreds of small houses on the flats are surrounded by water up to the second stories and have begun to turn over. The Western Union Telegraph company's main office is surrounded by six feet of water. On the west side of the river the water extends almost to Washington street on Sixth street, within a block of the Oregonian building on Sixth and Alder

streets. This evening the water has reached the first floor of Lipman & Wolf's, the largest dry goods store in the city. On the east side many of the elevated roadways leading to the river are submerged and the Madison street bridge at the south end of the city is the only bridge open to traffic. A rise of six inches more will shut off the gas supply of the city. The union depot is two feet under water and the Union Pacific car shops in Albina are surrounded by five feet of water. In this city a hard rain fell most of theday. Labor is in great demand and men are getting from

50 cents to \$1 per hour. The flood will interfere with the election to-morrow as many polling places are under water. No estimate of the damage

by flood is possible but it will be some-thing appalling when the reports from the upper and lower river are received. The Dalles, a town of 4.000 inhabitants, cannot be reached by wire but it is known from the height of the water here that nearly all the business portion of the town is under water. There is a strong current in the Columbia at that point and great dam age has certainly resulted.

LAMAR, Colo., June 3 .- Last night 50 feet of the south end of the bridge across the Arkansas river gave away beneath the flood, and an hour later 25 feet on the north side was swept away. The river cov ered all the bottoms and was a mile wide at the bridge. The Santa Fe tracks east and west are submerged and at Powers seven miles west, several hundred feet of

track is washed out. DENVER, June 3 .- J. E. Murden, contracting freight agent of the Union Pacific, is in the city, having walked all the distance from Central City to Golden. Mur-den said: "No one can conceive of the destruction in that part of the country. Every mine in Central City and vicinity is flooded and there is not a vestige of a placer mine left in Clear creek. Between Central City and Forks creek there are 28 washouts, averaging from 10 to 15 feet in width. Between Idaho Springs and Golden there are 36 washouts. Mining men in Central City estimate the loss to the company at \$500,000.

THE STRIKE IS BROKEN. State Troops Put Down the Miners to

Indiana. WASHINGTON, Ind., June 3.-The state troops marched into Clark's station this morning, 5,000 strong, with a Gatling gun, to find only about 50 miners had stayed to face the music. The militia was drawn up in line and Sheriff Lemaing then read a warrant against the miners for riotous conspiracy and placad four of the leaders, Squire, Summers, McGale and Fiynn, under arrest, bringing them to this city this afternoon and placing them on jail. As soon as the troops were in line the railroad company repaired the tracks and the

loaded cars were taken away.

The thousand miners who were reported en route to Clark did not materialize this morning, neither did they collect at any point along the Baltimore & Ohio Southwestern. The certainty that the officers intended to enforce the law seemed to quell the riotous feeling among the men. The miners say that as soon as the troops are withdrawn they will again stop all coal cars, but anticipating this, two companies will be stationed at Clark until all fear of trouble is passed. Trains of coal have been passing through the city

CANNELSBURG, Ind., June 3 .- It is apparent to-night that the backbone of the strike has been broken. The formidable appearance of the militia is what has done the work. The Washington miners deserted their colleagues and the hearts of the Cannelsburg miners are too faint and their numbers too few to do anything but to submit to the power of might. This afternoon scouting parties were sent out to scout the surrounding country. The search was fruitless, detachments failing to find any large number of men congregated at any one spot. It appears the miners from Washington took a very prominent part in the destruction of the property on Friday night and returned to their homes, failing to support the Cannelsburg men. Superintendent McMahon of the Baltimore & Ohio Southwestern, at the suggestion of the adjutant general, is crowding all the cars of coal from Cincinnati to the Indiana state line on the west. About 75 carloads were moved during the day. It is expected to have the line cleared by to-morrow morning of all coal. If this is done there will be no more shipments for 10 days. The adjutant general expressed his intention of sending most of the troops home to-morrow, retaining a sufficient force to prevent interference with trains until further developments should dictate the removal of all troops.

Hotel Arrivals.

BUTTE, June 3 .- Hotel arrivals to-day were: At the Southern-A. A. Hadley, San Francisco; F. F. Whittier, Minneap-

were: At the Southern—A. A. Hadley, San Francisco; F. F. Whittier, Minneapolis; Frank Harris, Stockton; P. Dunn, Mississippi City; J. McGowan, Akron, Ohio; William Naron, Porkston, S. D.; J. D. Murphy, H. A. Briggs, Philipsburg; F. Littlejohn, N. Gunnerson, Neihart.

The McDermott—E. S. Adkins, Pony; R. D. Hurley, Cincinnatt; Dr. A. H. Mitchell, Deer Lodge; E. S. Smith, Austin, Texas; A. Eilers, Angus McQueen, Helena; J. C. Hofer, Max Leopoid, H. Kunstader, Chicago; T. B. Cullen, Giendive; G. W. Fox, California; L. E. Cherry, N. Likins, C. S. Pierce, Minneapolis; E. C. Smith and wife, Montana; Gold Curtis, Great Falls; A. Hirshfield, St. Paul; G.A. Cook, C. H. Linderman, Montana.

The Butte—W. J. Toole, Hamilton; E. D. Haskins, J. E. Bradley, St. Louis; E. F. Welch, Joseph Peard, E. Claskaltan, O. J. Masser, Chicago; D. E. Conheim, St. Paul; J. E. Morse, Dillon; Ed Chase, Denver; P. C. Hayes, Ogden; A. W. McLure, jr., Salt Lake; C. E. Griffith, S. T. Gaseen, Helena; J. E. Ennis, Bozeman; B. Falkenberg, Rochester; F. J. Joseph, New York; H. Hamilton Walker, Great Falls; S. B. Folger, Seattle.

Baseball in Butte.

BUTTE, June 3.-The grocers' employes played a practice game at the athletic rounds this afternoon for the purpose of

grounds this afternoon for the purpose of selecting a team to go against the Anaconda ball tossers at their annual picnic in that city, June 21.

The Mackerels, who were captained by John Downey, defeated the Codfishes by a score of 17 to 16 this afternoon in an exciting game. Louis Schultz pitched for the Mackerels and James Lynch twirled the sphere for the Codfishes. N. B. Davidson umpired the game and escaped with his life. P. J. Brophy was an interested spectator of the game, and at its close he donated a four-bushel clothes basket to each player. The baskets will be used each player. The baskets will be used when they play the Anacondas.

Sanders Declines.

TOPEKA, Kas., June 2 .- United States District Attorney Perry has offered Sanders and his army the privilege of being tried in Leavenworth next week, but he declines, saying he wants to be tried in the United States district court at Wichita. Perry states that unless Sanders agrees to be tried next week, army will be held under guard until September, when court opens at Wichita.

The Way Down South CHARLESTON, S. C., June 3.-Harry Gill, colored, was taken from jail in Lancaster this morning and lynched.

## ROB THE PASSENGERS

Two Armed Men Hold Up a Coach at Thompson Falls.

THEY MADE THEIR ESCAPE

Advantage Taken of a Train Delayed By Floods On the Northern Pacific-The Pullman Car Not Molested.

Special Dispatch to the Standard.

Missoula, June 3.-At 3:35 o'clock this morning two armed men entered the day coach of the train that was laid up at Thompson Falls on account of the water and commanded the passengers to hold up their hands. One of them covered the car with his revolver and the other searched the passengers, taking every-thing of value. The largest amount taken was from one man, \$78, and the smallest 80 cents. In all the robbers secured about \$200 and several watches. As soon as the work was completed they jumped from the car and fled and before the alarm was given they were well out of the way and no trace has been found of them at this time.

A brakeman was in the car at the time. but neither he nor the passengers can give any description of the men who robbed them. No attempt was made to rob the Pullman car, it being locked, and probably the men feared to create a disturbance as the train was in the yard near the

RACING IN FRANCE.

Great Excitement Over the Victory of

Gospodara at Chantilly. PARIS, June 3 .- All the sporting world of Paris went to Chantilly to-day to witness the race for the Prix du Jeckey club, French Derby, for 3-year-olds. The money value was 138,600 francs, \$27,770. The distance was one mile and a half. The race was won by Gospodara, a chestnut colt by Gamin, out of Georgiana. Tojours, a bay colt by Retreat, out of Totote, was second, and Styx, a bay colt by Trysten, out of Symony, was third. The post odds were 16 to one against Gospodars, four to one against Tojours and five to one against Styx. Gospodara and his jockey were attacked by a mob when they were returning to the paddock. The were pro-tected from serious injury only by the police. Loud imprecations against the stables of Cunnington, the owner of the winner, were heard on the turf and in the

Gospodara, although the favorite for the Grand Poule des Produits a fortnight ago, ran until placed in that place and was beaten by Genvanc. His victory to-day, therefore, induced the belief he had not been ridden fairly in the former race. Cunnington is an English trainer and owner who has for a long time settled in France.

IN OREGON TO-DAY.

Prospects That the Republicans Will Get the Best of the Election. PORTLAND, June 3 .- Oregon will to-morrow vote for a full state ticket, members of congress and members of the legislature to choose a successor to United States Senator Dolph. The republicans have made a thorough canvass of the state during the past six weeks. The democrats have never had any chance of winning, and consequently have not con-

ducted an aggressive campaign on the

state ticket. The populists have not been idle. Governor Pennoyer, who is an avowed candidate for the United States senate, has traversed the state in the interests of the populists, making speeches in almost every county seat. It is believed that the three cornered contest will result favorable to the republicans and to-night there seems little doubt that nearly the entire republican

state ticket will be elected. The legislature will in all probability be very close. In many counties democrats and populists have fused on the legislative ticket and the majority heretofore held by the republicans will surely be reduced if not over-

Gold Bug Irjuns.

MUSKOGEE, I. T., June 3 .- The Cherokees have received the first installment of one-sixth of their money and the big payment of more than \$6,500,000 begins morrow at Tahlequah. More than 24,000 Cherokees will draw \$267 in cash each. It is estimated the merchants have traded more than \$1,000,000 on strip claims and it is now a question of how closely they will collect. It is said in some communities the people are holding secret meetings and are determined to pay only about 50 per cent. on their indebtedness to retailers.

Situation at Sofis.

Sofia, June 3.-Troops are still posted on the main streets of the city, but otherwise everything presents an almost normal aspect. The public gardens are closed with a view of preventing the holding public meetings. Prince Ferdinand and the princess were loudly cheered at noon when they appeared on the balcony of the witness stand to watch the mounting of the guard. A deputation of leading merchants went to the palace to-day to thank Prince Ferdinand for his recent

special Dispatch to the Standard. Missoula, June 3 .- At 7 o'clock this morning one of the members of the Griffiths Faust company awoke to see a man going through his clothes in his room in the Rankin block. He jumped from the bed and in his night clothes pursued the man to the street. The thief ran back of the brewery and hid. Officers searched for him but could not find him and later he is said to have made his escape acress the river.

To Manage the Broadwater.

Special Dispatch to the Standard. HELENA, June 2 .- It is currently reported that Julius Horst, formerly of the Park hotel, Great Falls, has about con-cluded arrangements for opening the Broadwater hotel for the season. Horst is an experienced hotel man, and it is believed his management of this popular resort would insure its success.
